Petition to Restore VPP Funding into FY2011 Budget

After the release of the President's proposed fiscal year 2011 (FY2011) budget, the Department of Labor's Occupational Safety and Health Administration (OSHA) announced in the congressional budget justification its plans to "*significantly reduce direct federal funding of the agency's Voluntary Protection Programs (VPP)*".

We, the undersigned, are asking you to return VPP to OSHA's arsenal of tools to protect American workers by adding Appropriations language and line-item funding for VPP in the FY2011 budget.
