That's why you don't want to miss this year's Safety+ Symposium where our partners in safety, OSHA, will be onsite to present seven different workshops, network with attendees, and present the keynote address during our Opening General Session. Here are all the details:

Join speaker Michael Hancock, Director of Safety for Marine Corps Air Facility Quantico (a VPP Star Site), for VPPPA's August Labor Summit! In the realm of safety, specifically when it comes time for Safety Managers to make program improvements, they're oftentimes met with pushback. But what if it didn't have to be that way? What if the very design of a safety program created a culture where change was embraced, even expected? In this webinar, Hancock will attest that this goal is in fact possible and provide attendees with an overview of overarching concepts within his 'Risk Reduction Lifestyle' - the foundation of the safety culture at the Marine Corps Air Facility, in Quantico, VA.

## Advocacy - Voluntary Protection Program Act

### Tell Congress to PASS the Voluntary Protection Programs Act!

Shortly after the Voluntary Protection Programs Participants' Association (VPPPA) was formed in 1985 there was movement to make the country's Voluntary Protection Programs (VPP) law. When Fed-OSHA adopted the California program, invented by Labor just a few years earlier, they adopted it as a discretionary program. This means VPP could be canceled with a pen stroke today. The VPP Act would codify the VPP into law, provide it a dedicated line item in OSHA's budget, and would maintain the existing VPP process.

**When constituents speak, Congress listens.** The VPPPA needs your help to support our efforts to pass the Voluntary Protection Programs Act. If passed and signed into law, the Voluntary Protection Programs would be cemented into law, protecting the program from dramatic swings in political power.
